Micro™ Cases

#1010 MICRO CASE

The new #1010 Micro Case is part of the Micro Cases, a new range of cases to protect your valuable small items. They have the same look as larger Peli, plus they combine a new attractive style, and offer the legendary strength of Peli Cases.

With the new Micro Cases you will be able to protect your cell phone, photographic camera, Personal Digital Assistants (PDA), electronic games, pager, radio, and other valuable small items. Micro Cases will totally protect your valuables, as they are watertight, crushproof and have an automatic pressure purge valve. Every Micro™ case is available in solid color or clear with matching liner and speed lock. They come with a ring and a lanyard for easy attachment.

The Micro Cases are excellent for trips or outdoor activities when you need to protect your valuables from water, falls, knocks, sun, atmospheric changes, etc. and as they are small sized so they can fit into luggage, bags, glove compartments, other Peli Cases and so on.

And remember, smaller does not mean less strong, the Micro™ Cases are just as durable as the larger models. Unconditionally guaranteed... forever.
