

# Protective Bags

## Original Equipment Manufacture

CP Cases Ltd manufactures a wide range of bags and covers for Original Equipment Manufacturers (OEMs), to provide a cost effective and practical solution for moving, deploying and protecting equipment and instrumentation.

Our products are widely used in the medical, defence, electronics and broadcast industries for a variety of applications.

From protecting expensive broadcast equipment at a rainy Wimbledon to sales presentation packs for artificial knee joints and operational bags for aircraft testing equipment. CP has provided answers.

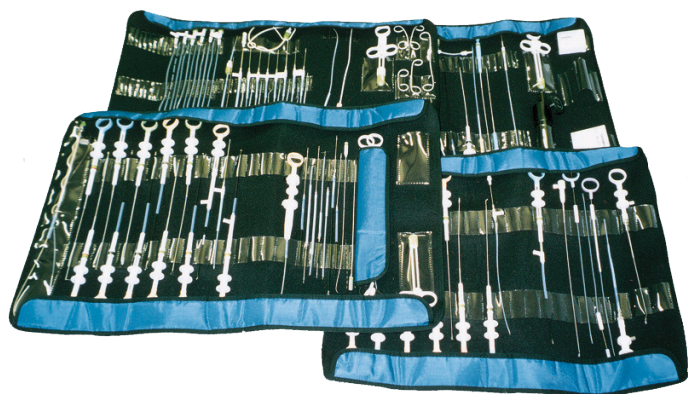

Our designers can create the most cost-effective bag for your needs. Here are some of the options available.

- Velcro or heavy duty zip fastening
- Handles and / or shoulder straps
- Single skin or foam padded
- Rigid linings for optimum protection
- Foam packs specifically designed and machine routed for superior cushioning
- Screen printing or embroidery of company names and logos

Bags have many advantages for the protection or presentation of your equipment...

- Light in weight
- Cost effective
- Small runs and production quantities are equally viable
- Versatile and easy to tailor for specific applications
- Corporate name can be screen printed or embroidered in chosen place

# Protective Bags

## Fabrics

A variety of fabrics in a range of colours are used (depending on the specific application), and stitched with high quality thread to ensure that all of our products are weather resistant and rot proof.

Materials used include:

- 1000 denier PU coated Cordura
- 600 denier PVC coated polyester
- 840 denier PVC coated nylon

## Volume Production

For small and medium sized runs, we manufacture at our factory in the UK.

For quantities greater than 500, we design and prototype in the UK, using the latest computer technology and then manufacture at our ISO 9001 resource in the far East, with careful attention to materials used and quality control processes.

We can produce in quantities of 1 to 25,000.
