The foldable bwh Transport Box

NEW!

Only just presented at FachPack 2009

The new foldable Transport Box **Variosafebox** from the house of bwh: Only just presented at FachPack 2009 trade fair, critically appraised – and enthusiastically welcomed! It is the new yardstick for security for (virtually) every form of transport: It is particularly robust and has great torsional strength, the removable front and side walls make loading and unloading easy, it has an effective interior foam cushioning and a special security lock ... everything for perfect protection. The new **Variosafebox** furthermore stands for the highest flexibility – from the ingenious folding mechanism through to the variety of models (also above and below palette size without additional tooling costs). This combination of benefits and features makes the new **Variosafebox** unique on the market to date. Why not get to know it? It is certain to adapt perfectly to your individual needs ...

At this point and in our customer magazine we portray demanding, intelligent case systems which we have designed and constructed for our customers – we would be happy to manage your case project, too! If you are interested, please contact us.
