## The Power Pack by bwh cases: The brand new Guardian Case

Made of high-impact HDPE plastic the Guardian Case by bwh cases offers optimal protection, even in rough use.

It is temperature resistant from -40°C to +80°C. The strengthened corners from semi-hard plastic and profiles with additional impact protection operate shock absorbing. A new locking system of high-impact plastic and an ergonomically formed handle are further advantages regarding security and a high quality presentation. High comfort is guaranteed by optional accessories like a trolley and running wheels.

Of course the Guardian Case is dust- and splash-proof (IP54), but can be manufactured watertight (IP67) if preferred. Heat, chill, water and physical power cannot do any harm to your products as long they are inside the Guardian Case of bwh.

As individuality is very important to us, we manufacture your personal Guardian Case by ordering only 200 pcs/year in batches of 100 pcs, designed according to your required dimensions and special needs, with impact protection in your corporate color and logo on bottom and lid.

*The Guardian Case by  
bwh cases is alternatively  
available in red  
(Pantone 186C) or black.*

## A case for all purposes – the new Robust Case by bwh

The brand new Robust Case promises stability and robustness by its optics and due to high-quality workmanship and chosen materials.

It's an ideal companion for any purpose. Stabilizing and anodized aluminum profiles, an extremely durable outer surface from hard-wearing plastics in honeycomb version, corners of special impact absorbing plastics as well as ergonomically formed and padded handles – all this leads to an amazing low tare weight for high carrying comfort and easy handling.

A trolley and running wheels are the ideal add-ons in case you want to transport heavy contents.

Also available  
with embossed  
company logo.

Customized dimensions and  
interior possible. Please ask  
us for further information.

The Robust Case is an all-rounder, it is temperature resistant from -30°C up to +100°C, dust- and splashproof (IP54) and can be manufactured in almost all sizes according to your needs, without any extra tool costs.

The bwh-Robust-Case guarantees a perfect protection of your products thanks to individual interiors adjusted to your expenses for daily use or transportation – a real all-rounder case!

A sophisticated finish complements the performance of these Outdoor Cases perfectly. They were tested according to STANAG 4280, DEF-STAN 81-41 and IP 67...a high quality product, we put a 30 year warranty on, still offering it for a reasonable price.

*\*for Type 3000 - 6000 only!*

## Convenient transport worldwide with new Outdoor Cases.

The new Outdoor Case stands all obstructions. Scales are made of impact resistant polypropylene. Therefore, the Outdoor Case is absolutely robust and stackable, dust-proof, water-tight and temperature resistant from -40°C to +80°C outside temperature.

Numerous functional details make the Outdoor Case your perfect companion in any surrounding. It is equipped with: two-stage locks – easy opening with one hand, an ergonomically formed and padded handle consisting of two components, an eyelet for padlock, space for a name tag, an o-ring seal and a pressure compensating valve avoiding any water entering.

In addition to that the new Outdoor Case offers various options: It is besides the black or yellow standard version also available in other colors with detachable hinges\* for the removable lid. Furthermore we supply a pick & plug foam, a padded divider, a carrying strap, a lid pocket, and a back-pack system. The interior is shapeable as well.

Ergonomically formed two-component handle with soft insert for a comfortable carrying.

Two-stage lock – easy opening with one hand.

## The bwh VarioSafe-Box: So flexible, so convenient.

Your demands regarding transportation are clear – and refer precisely to your business. What you need is a custom-made solution in special dimensions based on a high security level without any extra costs. The solution: Our VarioSafe-Box.

The VarioSafe-Box is extremely variabel: It's foldable and stackable at the same time. The removable front- and side walls allow an easy loading from all sides. Furthermore, it can be manufactured in almost all dimensions, even beyond pallet size. On top of that the VarioSafeBox can be upgraded to your special needs, just as most of our bwh cases.

The VarioSafe-Box has a high level of stability and torsional stiffness – important for a daily demanding use. A safety lock is the perfect protection for your products. Thanks to our sophisticated concept your individual VarioSafe-Box can be manufactured without any extra costs.

## bwh SkyBox: A whole range of safety and protection.

Using bwh cases, thieves have no chance! Together with Transguard – part of the Emirates Group Security – we developed the SkyBox: Whether it is mobile phones or computer components, microchips or pharmaceutical products, gold or arts – the Skybox by bwh offers a “Door-To-Door Guaranteed Security” and protects sensitive and expensive goods against theft and weather influences.

Height adjustable from 70 – 130 cm

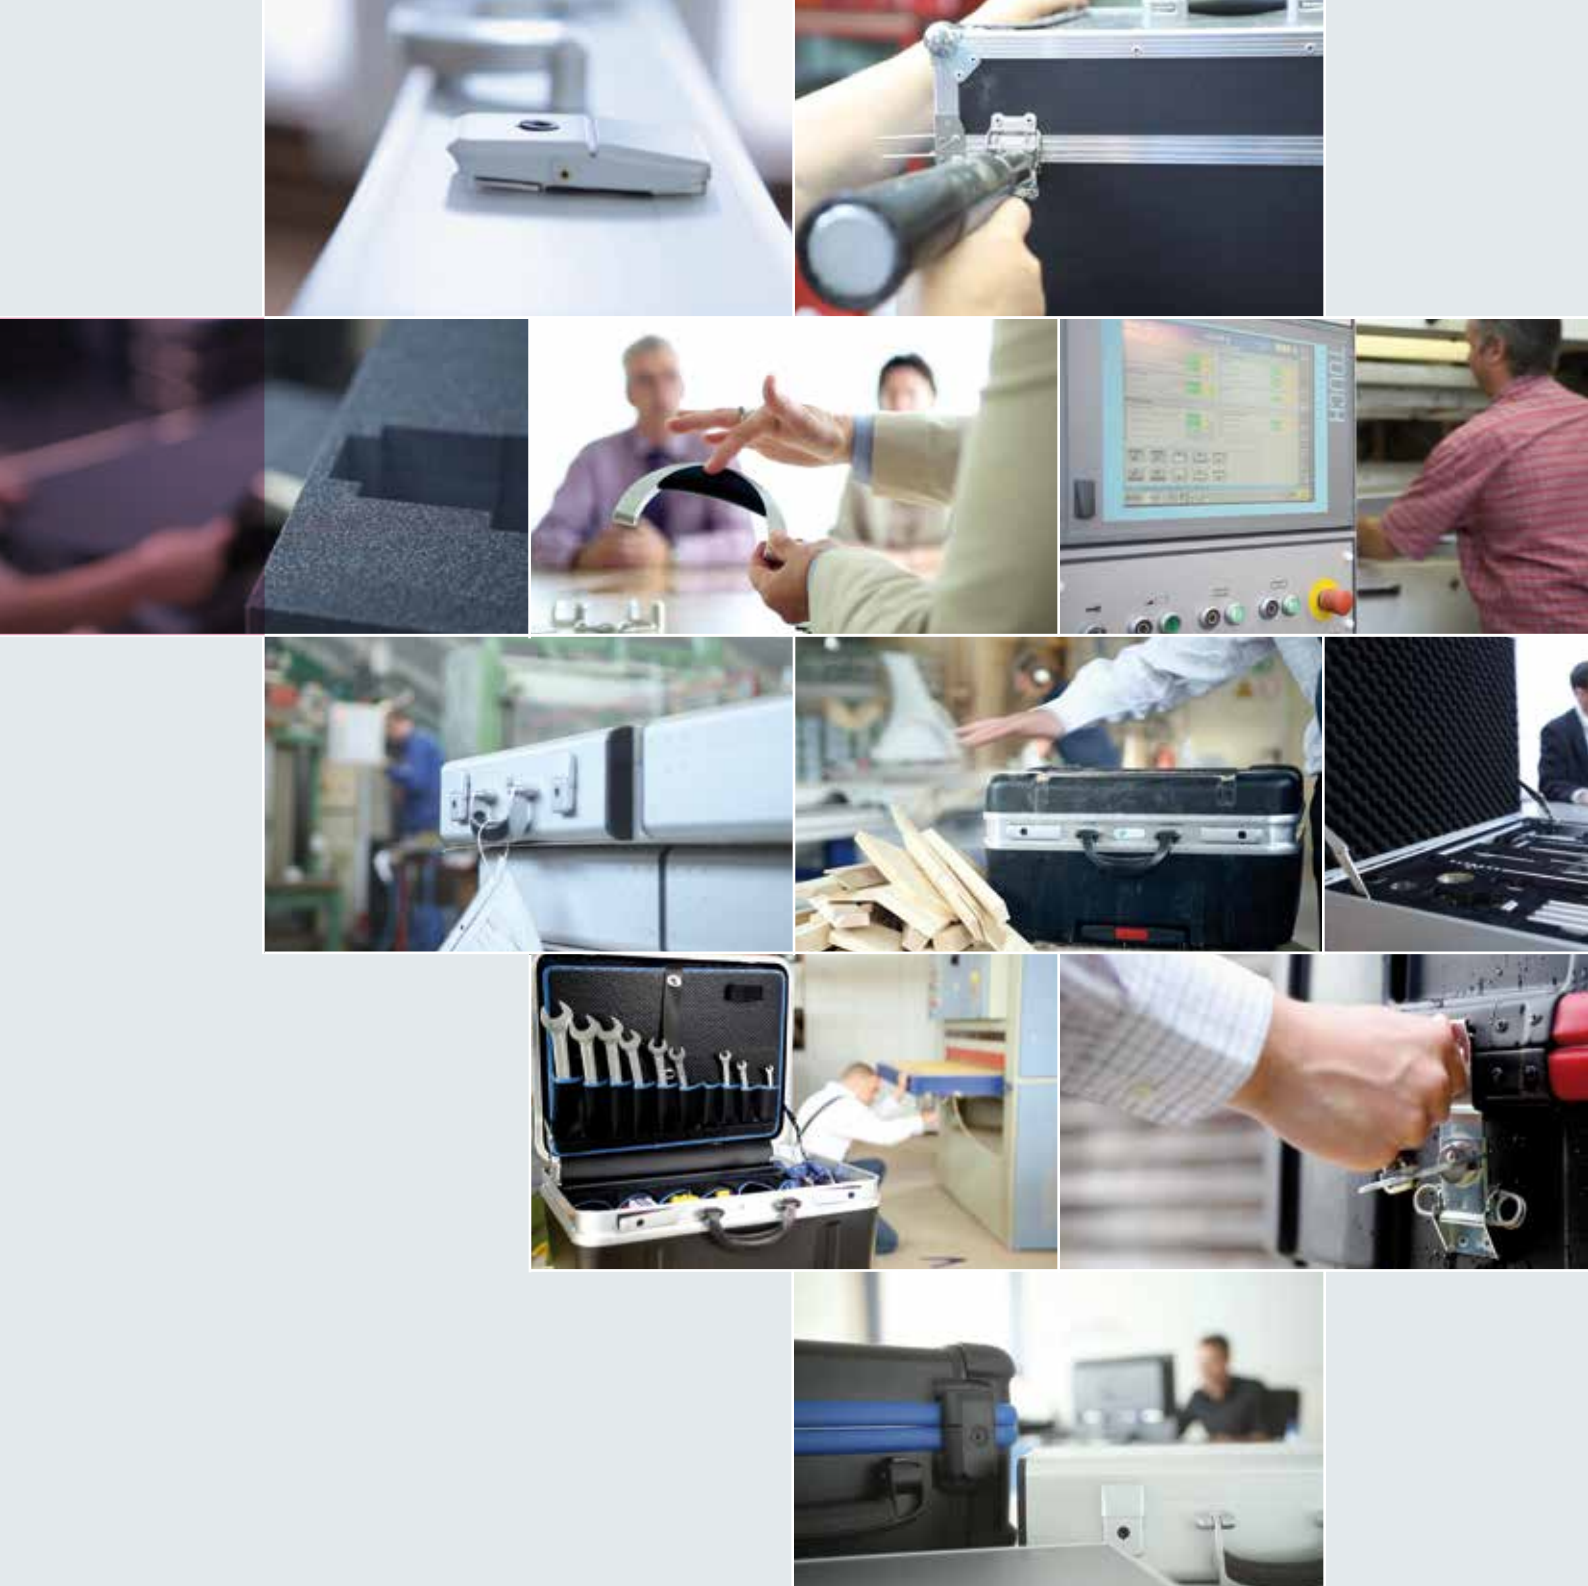

The Sky Box offers a lot of space: It can hold Euro pallets sized 120 x 80 cm, flexible expendable. One SkyBox by bwh can carry up to 4.000 kg (dynamical weight: 1.200 kg, the lid bears max. 500 kg).

The Skybox convinces with some useful details – a clever cable drum for the safety rope as well as great flexibility: By pushing the lid, the height of the SkyBox is adjustable in steps of 5 cm from 70 cm up to 130 cm maximum height.

All products by bwh, including SkyBox, offer high protection for your products. Drop tests from height of 12 m with a load of 350 kg showed that the SkyBox is indestructible – safety and protection on the highest level!
