

The Jazz Stand

A professional music stand with a full range of height adjustment, industry standard stability and a full size music tray with pencil shelf.

And yet, as a result of its unique design it unfolds in three moves from a flat pack no larger than the size of the tray. It does this with no knobs, no finger traps and no hassle; just three easy moves.

A supporting range of flight cases, trolleys, carry bags and lights ensure that this is the ultimate travelling stand, both for individual musicians and touring groups.

The Jazz Stand can be unfolded with its base pointing away from the user. It then makes a unique portable conductor's stand.
